2 Chronicles continues the story of Solomon's reign, and continues the writing style that describes Solomon as an ideal monarch, second only to King David. The Chronicler writes very little about the northern kingdom (Israel) because he felt it did not represent the true Israel.

14-2 Chronicles (Sunlight & Shadows)

This is Block 14 of a 73 block series representing the 39 books of the Old Testament, 7 books of the Apocrypha, and 27 books of the New Testament. I chose to name the blocks after books of the Bible as a testament to my faith. I call the finished quilt "Bible Studies." Whether Catholic or Protestant, I hope each block will have a special meaning to the quilt maker. For me, reviewing the books of the Bible recalled many of my favorite bible stories and passages. I include a bit of Bible history for each block. I have used, as a reference, the New Oxford Annotated

Bible with the Apocrypha, Revised Standard Version, 1977, an Ecumenical Study Bible.

I chose the Sunlight and Shadows block to represent 2 Chronicles because of the distinct division between the northern kingdom (Israel) and southern kingdom (Judah). The chronicler's negative view of the northern kingdom may be linked to the general hatred of Samaritans.
